New Meaning of Cruising with Style

Especially in Europe, when you are talking about cruise, then people will only think of cruising with English style (with Cunard) or Italian style (with Costa and MSC). Others will think that cruise is only exist for older people. I would say, none of them is 100% correct! At the beginning, cruises was created meant only to cross the Atlantic and

for those rich and famous, however, now a days, you can find cruise for any price range, depends on what are you looking for. Celebrity Eclipse - one of the latest member of Celebrity Cruise in the Solstice Class, has been made to attract those young-executive clients. It has been design for those who love to spending time on the sea without

have to give up on-land good time. There are many public sitting area, even around the cabin area to reduce the feeling of being “squeeze” by the metal wall, of course the best of all is The Lawn, a space design for those who would like to spend sometimes to either enjoy a “mini” cricket game, or just to do a real picnic on a real grass.

THE LIBRARY

“If you are looking for chic and luxury cruise, with Celebrity Cruise you won't go wrong!”

For me, staying on Celebrity Eclipse made me feel like living in New York city during the weekend. Fancy restaurants, live musics, live performance on the Eclipse theater, even better, duty-free shopping open until midnight. Other thing that really make the difference is that you still having your fancy live without have to do the valet parking

to reach those “fancy destinations”.

There is also the famous i-lounge, an internet cafe which also an authorized dealer of Apple (you could even purchase the latest MacBook from there, tax free).

My favorite parts of the ship are

the Library, a 2-story open foyer filled with collection of books that you can read anytime (open 24 hours), and the Aquaspa - great treatment with reasonable price.

Other thing that works really good for us who making life with Swiss Francs, is that all prices onboard is in US dollars (even though there is a 15% service charge will be added to the bill), which means, whatever we pay will be just about as much as what we've paid (sometimes even less) in Switzerland.
